

Tulip Power

Let us Power you

Sun + Wind (ZW)

The Sun & Wind model is the ultimate choice for off-grid charging solutions. Integrated with a solar panel and a one-meter version of our aesthetic and efficient wind tulip, you can rest assured that this charging station will generate power regardless of the weather. The electricity is stored within the unit, available at the push of a button. Thanks to its height and colors, this model will be spotted easily by its users.
